### DETAILED ACTION

1. This office action is in response to communication filed on 2/27/2006.
2. Claims 1-4, 6-10, 12-13, 15-23, 27-30, 34-36, 40-41, 43-51 are presented for examination.

### **Claim Rejections - 35 USC § 102**

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. **Claims 1-4, 7-16, 19, 27, 30, 34-35, 40-41, 43-49, 50-51 are rejected under 35 U.S.C. 102(b) as being anticipated by article titled, "recommend-it.com".**

With respect to claims 1-4, 7-13, 15-16, 19, 27, 30, 34-35, 40-41, 43-49, 50-51, recommend it.com teaches a method of marketing comprising the steps of a first party recommending a marketable entity, the recommendation comprising forwarding offering a reward to a first party a recommendation of a marketable entity, the recommendation comprising forwarding of a first e-mail message to a second party, the first message comprising a personalized referral for the marketable entity and a first set of data, the first set of data comprising a first serial number and a first URL link to a first web site having an offer to transact for the marketable entity (i.e. the first user will send an e-mail to a friend or colleague detailing the site and would include a short description identifying the website, a link to the website and a personal annotation)(page 2); correlating the first set of data in the first e-mail message to data within a database , the

data within the database comprising data relating to the reward offered to the first party (i.e. the first user will receive the website's design/promotion letter for recommending the second party)(page 2); updating the database with an e-mail address of a second party provided by the first party (pages 1-4); forwarding the first e-mail message to the e-mail address of the second party (see page 4); wherein the marketable entity is selected from a group consisting of goods and services (i.e. different categories of websites available offering different brands or goods)(page 1).

**Claim Rejections - 35 USC § 103**

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

**6. Claims 6, 17-18, 20-23, 28-29, and 36 are rejected under 35 U.S.C. 103(a) as being unpatentable over article titled, "recommend-it.com".**

Claims 6, 17-18, 20, further recite that the link is accessible through a token in the form of a first icon visible in the message. Official notice is taken that it is old and well known in the computer related field to have a token in the form of an icon that is visible in the message in order to represent a function, object or program. It would have been obvious to a person of ordinary skill in the art at the time of Applicant's invention to have included a token in the form of a first icon visible in the message in order to make file navigations and manipulation easier.

Claims 21-23, 28-29, 36 further recite crediting an account within a database and recording the reward credited. Official notice is taken that it is old and well known in the business related arts to credit an account because such a modification would provide an easy and efficient way to reward a customer. It would have been obvious to a person of ordinary skill in the art at the time of Applicant's invention to have included crediting an account within a database and recording the reward credited in order to obtain the above mentioned advantage.

**Response to Arguments**

7. Applicant's arguments with respect to claims 1-4, 6-10, 12-13, 15-23, 27-30, 34-36, 40-41, 43-51 have been considered but are moot in view of the new ground(s) of rejection.

**Conclusion**

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 3622

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
